

BUSTER + PUNCH
LONDON

**BUSTER + PUNCH STARTED IN A GARAGE IN
EAST LONDON, BUILDING CUSTOM MOTORBIKES.**

Our love for working with rare, solid metals has led us to transform everyday functional fittings into extraordinary home essentials.

From the light bulb, the dimmer switch and the pendant lamp to the door handle and the cabinet pull, Buster + Punch has created an innovative collection of unexpected design details.

OUR WORLD.]

OUR DESIGNER.]

[category. **CABINET HARDWARE.**]

A collection of unique kitchen handles, cabinet pulls, drawer knobs, door pulls and furniture hardware. Crafted from solid metal, using a diamond-edge cnc lathe and featuring either our signature cross-knurl pattern or our elegant linear-knurl pattern. Refined by hand.

[collection. **LINEAR.**]

Our new linear-knurl pattern is machined into 12mm diameter solid bar and inspired by fashion accessory hardware. Elegant in look and scale this knurl is beautifully refined. The linear-knurl is accompanied by machined torx screws.

[location. **SHOREDITCH, GARAGE.**]

"I was working as an architect by day and building custom motorbikes by night. I taught myself how to craft solid metal into one-off custom parts. Handlebars soon turned into door handles, light switches and wall lights and Buster + Punch was born"

Massimo Buster Minale, Founder.

[focus. **EXHAUST DETAILS.**]

Each spotlight houses a baffle, where all the magic happens. Fashioned from solid metal bar, the exterior linear-knurl pattern traps light, whilst the chamfered interior reflects light, resulting in an ambient metallic glow. The spotlight is then held together with delicate torx screws, as found on motorbike exhausts.

STEEL.]

[finish. **STEEL.**]

Made from solid stainless steel and refined by hand. This is our most durable finish and will remain the same crisp finish from the moment you take it out of the box for many years to come.

[finish. **BRASS.**]

Made from solid brass which has been precision machined and then finished with two layers of durable satin lacquer. This finish will age slowly with time, moving from a radiant brass colour to a deeper more golden finish within a few years.

[finish. **SMOKED BRONZE.**]

Made from solid brass and then hand finished with a special oxidising formula, before it is heated to give a beautiful dark bronze appearance. The finish is then hand brushed and a layer of satin lacquer applied. Smoked bronze is a 'living finish' which means it will age over time.

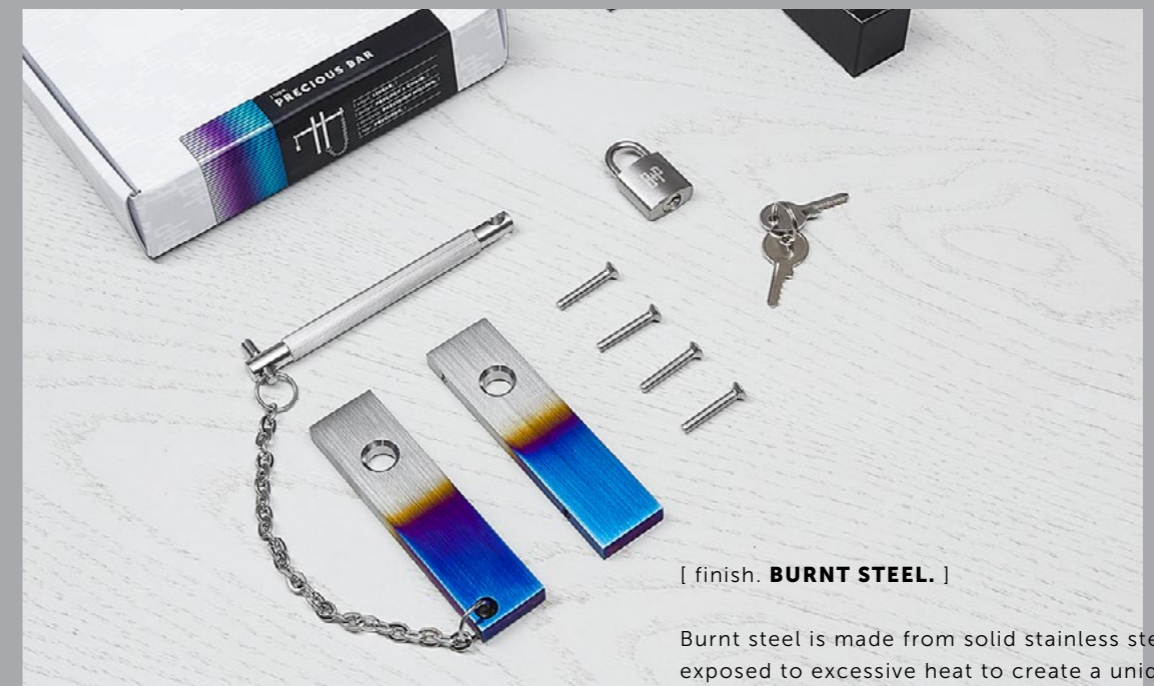

[finish. **BLACK.**]

Black is made from aluminium and then anodised to give a very consistent deep black finish.

[finish. **GUN METAL.**]

Gun metal is made from solid stainless steel which is then finished in gun metal PVD. This is an extremely durable finish and will remain the same elegant finish from the moment you take it out of the box for many years to come.

[finish. **BURNT STEEL.**]

Burnt steel is made from solid stainless steel and exposed to excessive heat to create a unique and natural burnt steel finish. The heat gives the steel a rainbow of blue, purple and yellow, ensuring that no two finishes are ever the same.

We make all of our products from the same solid metal finishes - steel, brass, gun metal, smoked bronze, black and on special occasions, burnt steel. This makes it super easy to match all your home details from light pendants to light switches, kitchen pulls to door handles.
