Design tailored to your needs

Regardless of room shape or size, Calidris is the exclusive, premium-quality furniture range for people who enjoy life to the full and seek the finest natural materials as well as quintessential Danish design.

Far more than a range of bathroom furniture, Calidris allows you to furnish an entire room with a wide variety of products from the range. As well as furniture, mirrors and basins, the collection also offers several lighting solutions and a wide range of accessories that help create a complete solution where every single detail has been carefully considered. In this way, Calidris offers an integrated and uniform design expression.

We celebrate diversity

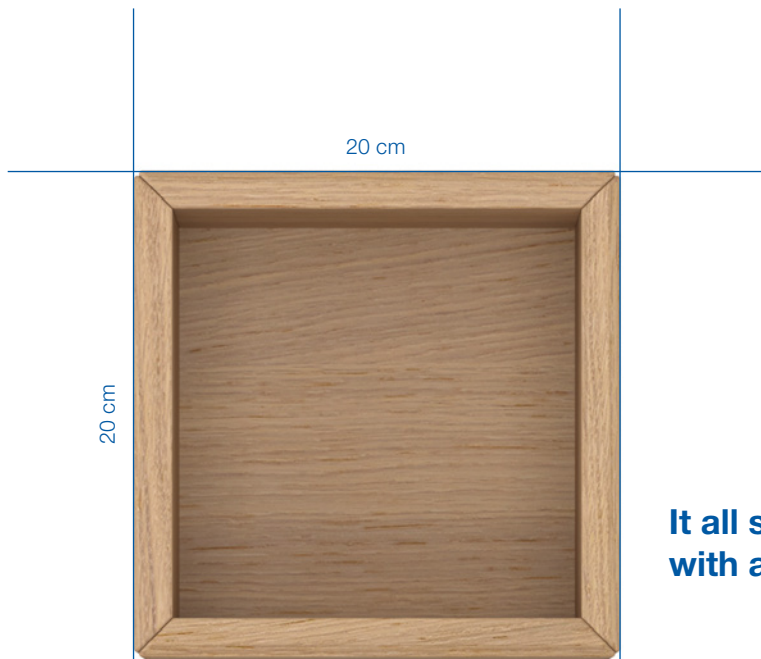

Most people want to create a home that makes them comfortable and reflects their personalities, so why should the bathroom be different?

There are often several people who use the bathroom every day, so of course, the furniture must be adaptable to meet different needs. And luckily, you can do that with Calidris. The different furniture items and accessories can combine into a tailored solution with smart details. Everything fits perfectly into your bathroom and makes everyday life a little easier and more enjoyable.

Unique / 120 cm / Dark oak

It all started with a small square

Calidris is inspired by the idea that a 20x20 cm module can give you a full overview of the product range's possibilities. You start with a basic square shape and can end up with a wholly unique bathroom. So, using simple measurements like 20, 40, 60, 80 and 100 cm, etc. you can easily design your new bathroom

The idea behind the streamlined square module is that no matter how you use Calidris to furnish a room, the end result is an intuitive whole that creates a sense of calm and continuity. All the accessories follow the same modular principle and have the same design expression as the rest of the collection.

The simplicity of the design also produces a perfect result that you can live with for many years to come – with the advantage that you can replace and supplement items with other products from the range.

Form / 200 cm / White matt

Your dreams can come true – whether the bathroom is large or small

Your room is unique, so don't hold back. Whether your room is large and uniform or small, with sloping ceilings and odd angles, you can easily use all of the space with Calidris. The series includes solutions for all types of room so the design and look you choose can be adapted to fit in the visitors' bathroom as well as the large master bathroom.

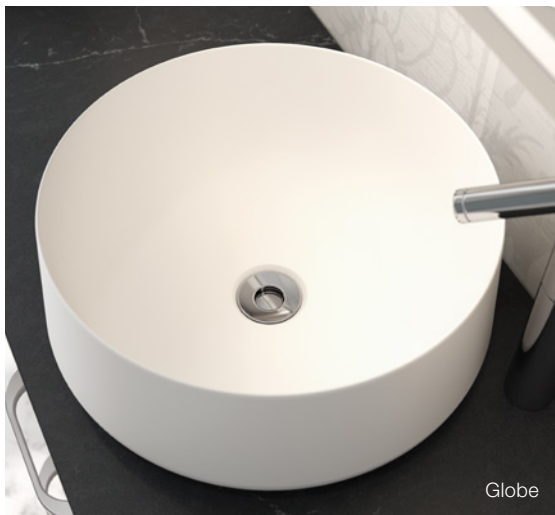

CREATE YOUR PERSONAL SPACE

Shape

Five elegant basins, each with its own design expression

Just like the furniture, the basins represent the best of Danish design quality. The Calidris series adapts to your unique needs, not the other way round. That is why, in addition to standard dimensions, there are basins and worktop solutions in custom measurements, which will fit perfectly into your new bathroom. If you want your fittings to have an elegant free-standing basin as the final touch, all worktops can be made either with or without a cut-out.

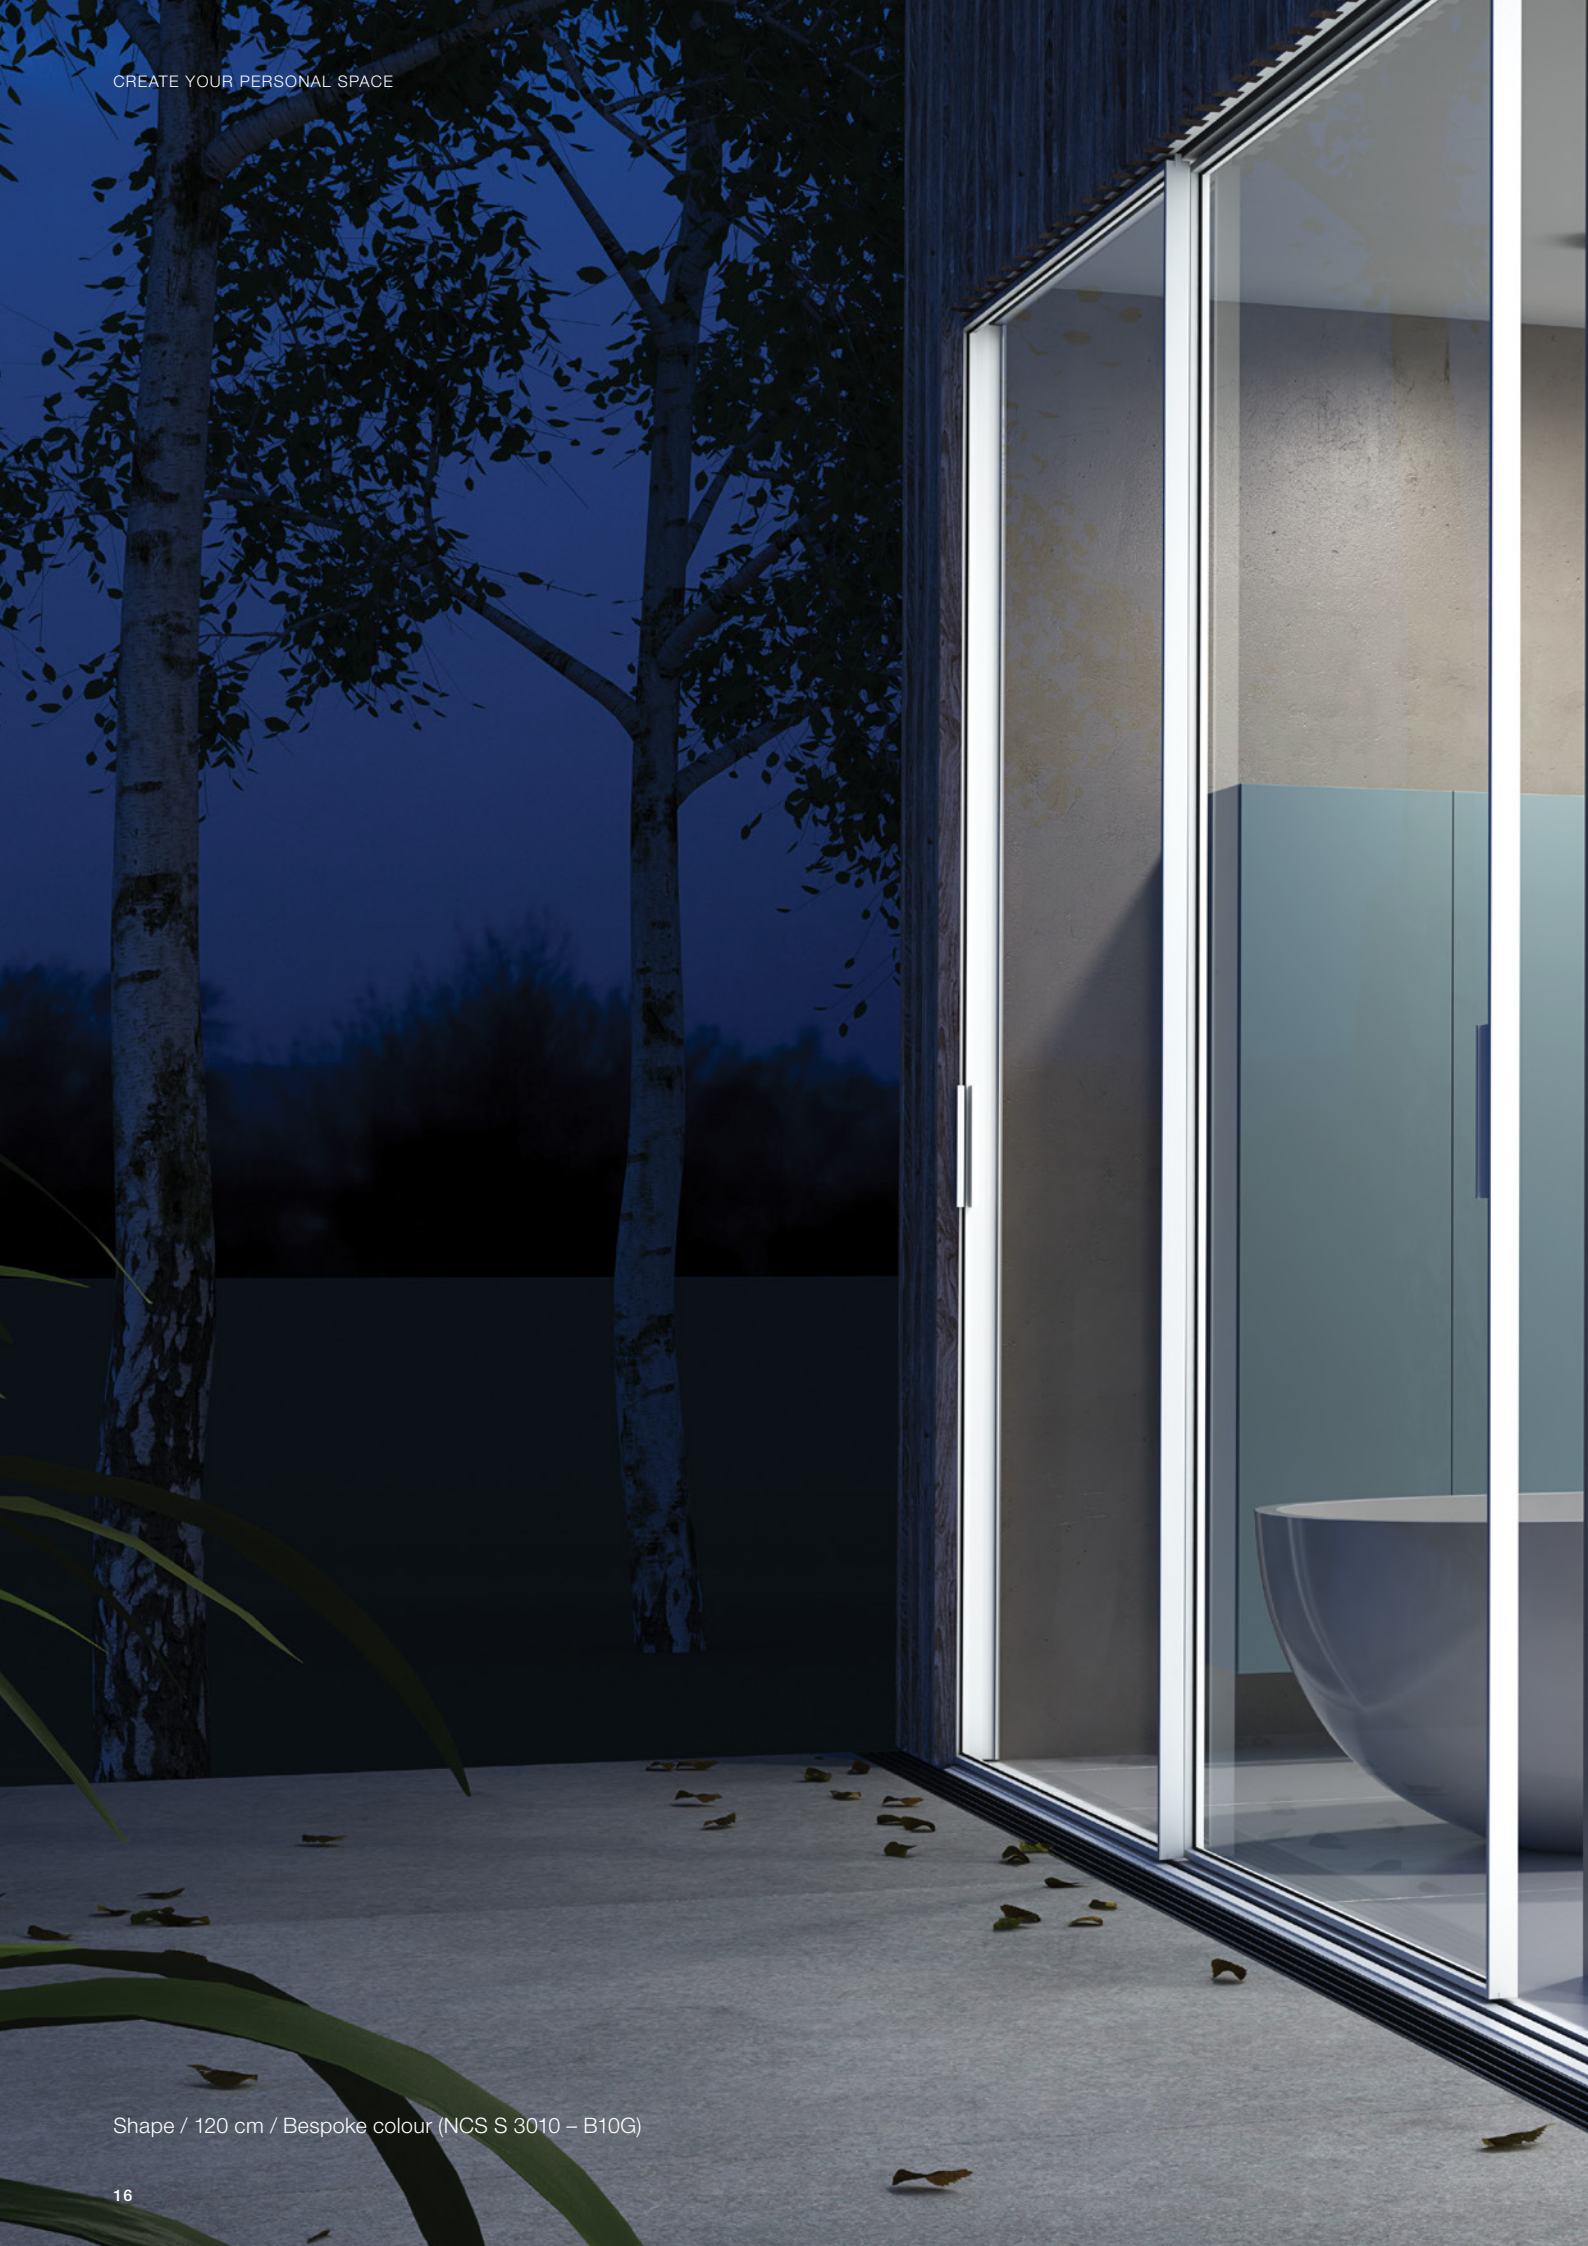

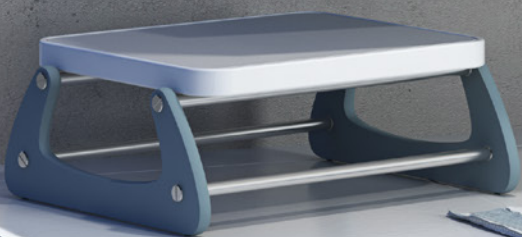

Globe / 220 cm / Bespoke colour (NCS S 1502 - Y50R)

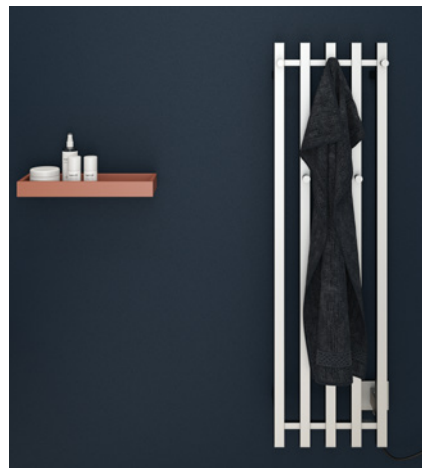

CREATE YOUR PERSONAL SPACE

Shape / 120 cm / Bespoke colour (NCS S 3010 – B10G)

Form / 60 cm / Bespoke colour (NCS S 4030 – Y70R)

Unique / 160 cm / Oak noir

Smart and stylish – just for you

Calidris is the idea of beautifully formed functionality, enabling individual designs for both the large primary family bathroom, as well as the more compact city life bathroom in mini format.

Globe / 120 cm / Bespoke colour (NCS S 7010-R90B)

An asymmetrical basin fits where space is limited. Sloping ceilings are no longer a serious design challenge, but can be made attractively functional, opening up excitingly different possibilities. Positioning the basin asymmetrically is a smart and functional way to make use of the sloping ceiling. Calidris has a wide range of cupboards, trays and hooks in several sizes as wall accessories, and we have ways to use odd angles decoratively and functionally.

See all basins on page 64.

Ellipse / 200 cm / Grey oak

Make the best of the space

Be flexible when furnishing and see the shape of the room as an opportunity instead of a limitation. Exploit the space under the sloping ceiling with a full-width wall-to-wall solution. You can adapt to the odd angles in the room with a worktop solution cut precisely to fit your bathroom.

Unique / 160 cm / Red brown oak

Shape / 240 cm / Light oak

It's all in the detail

It is surprising what a difference the little details can make every day. Even the ones you don't see straight away. With Calidris they add up consistently, so you enjoy using a beautiful and fitting bathroom every day.

Many of the details are based on good, old-fashioned logic. By that we mean that accessories such as shelves, hooks and towel rails always fit in with the dimensions of the furniture. That way, we create optimal functionality in the bathroom. There is an aesthetic advantage too: a streamlined, uniform look, no matter your viewpoint.

A love affair with the art of furniture-making

Quality furniture is the result of real craftsmanship. At Dansani, craftsmanship is important because it conveys quality and respect for the materials and the people who use our products. It is your guarantee that the product you have bought will serve you well for a long time.

All wood used in Dansani Calidris products comes from sustainable European forests. We only use first-class quality product. Our trained professionals sort and select the wood on the basis of strength, grain pattern, wood tone and uniformity. All wooden joints are assembled using biscuit joints of cabinet-maker quality. This gives a strong, stable and beautiful construction.

Aesthetic exclusivity

The desire to create a light, elegant piece of furniture that looks beautiful from any angle has led to classic furniture-making solutions with bevelled joints. The cabinets in the Calidris range therefore ooze the same aesthetic experience, regardless of where they are positioned on the wall.

When design meets functionality

The bevelled edges of the doors provide a multi-functional solution. They make the edges appear narrower and lighter without compromising structural strength. They also render the cabinet handle-less, because you can easily grasp the edge of the door and open it. A classic, minimal solution entirely in keeping with the principles of Danish design.

**Open the drawer
And talk about practical advantages**

As you open the drawers, you will discover cleverly designed compartments to ensure easy and organised access to your toiletries. The drawers are wide and deep, and supplied with practical drawer dividers, wooden trays in oak, and doors, magnets and non-slip rubber mats that can be taken out for cleaning. You can also choose to have lighting in the drawers and a practical socket in the bottom drawer. The drawers are fully extendable to give you an overview. Dampers ensure that the drawers close softly. All drawers are white internally regardless of cabinet colour to give you a light and satisfying experience.

Add a splash of colour to your bathroom

You can choose exactly the colour you want for your bathroom if you want to try a shade not in our standard offer and create your own unique Calidris look. This applies not only to doors, drawers, and cabinets, but also to accessories such as seating, mirror frames and shelves. Experiment with the colours and create your own unique look.

Create a calm space and make your bathroom personal

In the Calidris series we focus on furnishing the whole room, so you get a cohesive and balanced bathroom. We have therefore developed a unique series with floating shelves, hooks, a stool, a step, etc. in the same design and uncompromising quality as our furniture. The accessories make the room personal, and can help to meet specific requirements you may have in the bathroom. You can choose accessories in the same colour as the furniture, or in a contrast to make the room excitingly different.

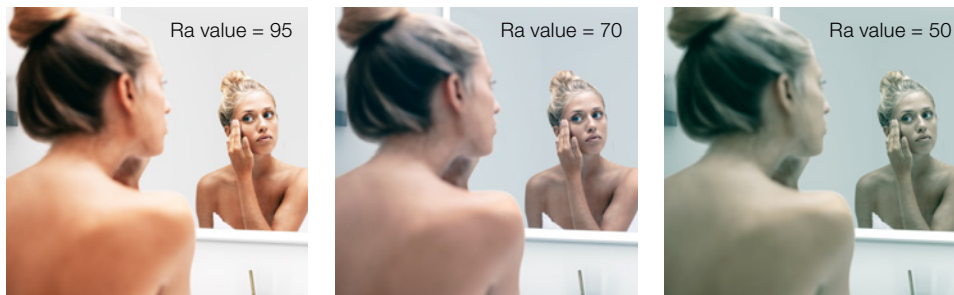

Well-being and harmony with correct lighting

Light plays a vital role when it comes to our health and well-being, and it has been scientifically proven that good lighting increases our quality of life. Therefore, we ought to be critical and quality-conscious when we select lighting for our homes. Because artificial light is not always good illumination.

Basically, it is all about finding a comfortable light, as close as possible to sunlight, so that the colours of materials and people are reproduced in a varied and natural way.

Homogeneous light

If you buy your lighting from Dansani, you do not need to worry about quality and colours of the light. Our LED light fittings are sorted applying high quality levels, that ensures that all LEDs in your lamps emit a homogeneous light and offer the same correct colour reproduction, no matter the lamp model and position.

On the photos above, you can clearly see the difference in colour reproduction with a Ra value of 95, 70 and 50, respectively.

DID YOU KNOW THAT

- good lighting means better quality of life
- your circadian rhythm is affected less with the right lighting
- putting on make-up and shaving are much easier in good lighting

For good-looking make-up you need the right lighting

"As a make-up artist, I need the best lighting conditions, but unfortunately I often find poor lighting on location, and in hotels and bathrooms. So I hope more people will discover that there is a difference between good and bad lighting.

If I am to give my models perfect make-up, it is important that the light in the mirror reproduces daylight exactly, so the make-up looks perfect when they are out in front of the camera. To avoid shadows and incorrect colour reproduction from poor lighting, I recommend using a mirror with LED lighting from Dansani, which is what I do myself. One of the best things when I am working is that the mirror has touch control and the colour can be regulated as needed."

Gabriella Tipsa Bruun
Makeup-artist

Unique / 60 cm / White oak

Beautiful, radiant cohesion

With Calidris you create not only a connection between furniture and space. The lighting is also well designed, enabling you to create a uniform look. You can choose between the Jupiter and Venus lighting series as well as a variety of smart indirect lighting solutions.

Combine your lighting solution

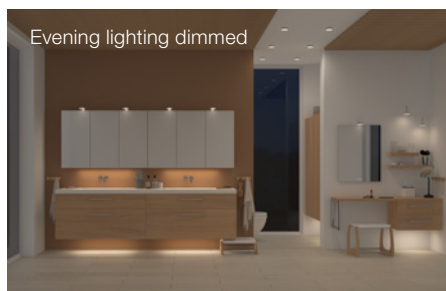

-
- 01 Moon mirror with LED lighting and lighting control. Available in black or brass.
 - 02 Show LED lighting mirror with white-lacquered frame gives a soft, pleasant light.
 - 03 Venus - energy efficient LED light for fitting on a mirror cabinet or directly onto a mirror.
 - 04 Jupiter - ultra-thin energy efficient LED ceiling spot. Available in chrome, white or black.
 - 05 Jupiter - energy-saving LED-pendant, available in chrome, white or black.
 - 06 LED underlight for mirror cabinets.

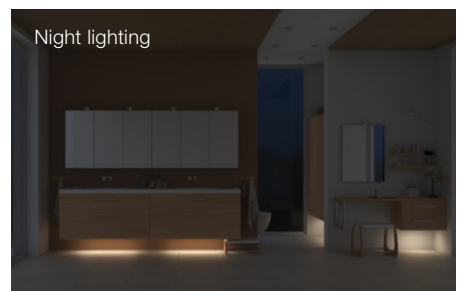

Unique / 240 cm / Light oak

Evening lighting

Evening lighting dimmed

Night lighting

Adjust the light to suit you

The bathroom is the room we usually find ourselves in during the transition between sleeping and waking, both in the morning as well as in the evening. So the light in this room is incredibly important for your sense of well-being. Calidris provides a range of solutions including ceiling-suspended pendants, ceiling lights, lighting for mirrors and mirror cabinets as well as indirect lighting in cabinets and drawers that strike the right balance between well-being and task lighting. They result in light as close to natural daylight as possible giving you the same appearance as if you were outdoors.

Furthermore, all lighting solutions are adapted so you will find that the light sources interact to give a balanced and natural look. Dansani uses LEDs in all lighting solutions to ensure energy-efficient, long-lasting illumination. Our LEDs boast the best colour rendering in the market, ensuring that make-up, for example, looks the same colour in the mirror as in daylight. Our designers have made a point of creating lighting solutions that provide good light without dazzling the user.

Inspiration for your bathroom

If the room allows it - spread out the furniture, as this creates a very exclusive look. Worktop solutions for cabinets and consoles are available to measure – in addition to a wide standard range of the most popular sizes. All solutions are available with or without a cut-out for tabletop basins. The numerous units, basins and accessories in the range allow you to emphasise the special characteristics of the room and choose the functionality you need.

Form / 140 cm / Bespoke colour (NCS S 1005-R)

Everything you need within reach

Calidris offers you the option of even more storage space and maximum use of all walls and recesses in your bathroom. You can furnish dead space below the window, above the toilet and behind the door with cabinets, shelves and other accessories.

Shape / 120 cm / Bespoke colour (NCS S 3010 – B10G)

If you prefer a minimal look and want a simple design for your bathroom, choose push-open drawers without handles. With a handle-less solution, your bathroom is not only aesthetically beautiful; it has maximum functionality too.

Form / 180 cm / Bespoke colour (NCS S 7500-N)

It can also be light and lively in black

There are many different ways to furnish your new bathroom. Choosing the size and type of furniture is one thing but another is the choice of colours and the mood they create. So even if you go for dark bathroom furniture that radiates exclusivity, you can add warmth and light to the whole room, e.g. with the help of colour on the walls.

Shape / 60 cm / Oak noir

Break down barriers

Extend the same style as the bathroom into the hall or your bedroom – with matching Calidris cabinets. That way you remove the boundaries between the rooms so there is more space and the room looks bigger. At the same time you create an integrated and exclusive look.

Shape / 230 cm / White matt

Form / 140 cm / Light oak

Form / 200 cm / White matt

Large rooms deserve furniture with great ambitions. For example the Calidris console solution that offers a uniform whole and creates harmony with clean and unbroken lines and a consistent use of colours. Make your console solution with or without basin. The opportunities abound – the choice is yours.

Basins

Shape / Solid surface

Elegant, minimal design with a matt, velvety soft surface in a light, ultrathin material. The basin can be custom-made, so that both the position and the number of basins are ideal for your bathroom. The large, roomy basin with rounded corners is available in two projections.

Form / Glass

Modern, clean styling with soft forms. The four matt colours, thin look and soft basin design radiate personality and elegance. The basin can be made precisely for the size of your bathroom, the number of basins and from a choice of 4 colours.

Unique / Stone

The bold and stringent design in Silestone® draws attention – an exclusive natural material which adds a touch of elegant luxury to lift your bathroom into a class of its own. Each basin is unique and can be made specially for you with the number of basins, the size and position you want. The deep, roomy bowl is available in two widths.

Globe / Sanitary porcelain

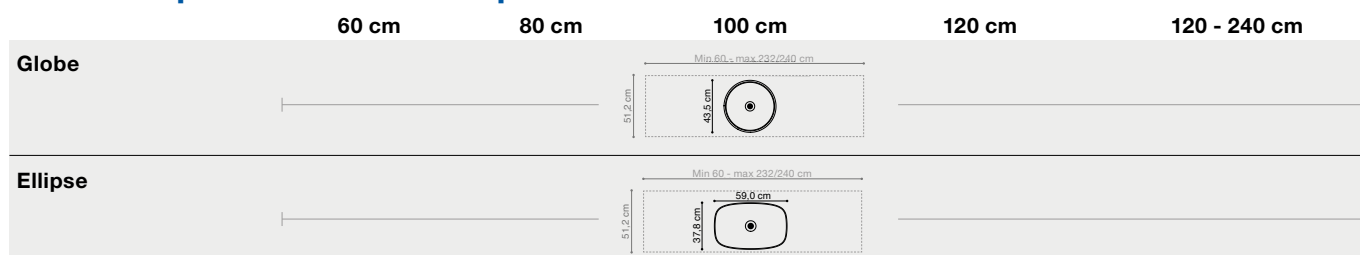

A beautiful sit-on basin with thin outer edges as a sharp contrast to the gentle inner form. The bowl-shaped design has a high profile to give a large, accommodating basin. The basin can be fitted on our elegant worktop. Manufactured in Italy.

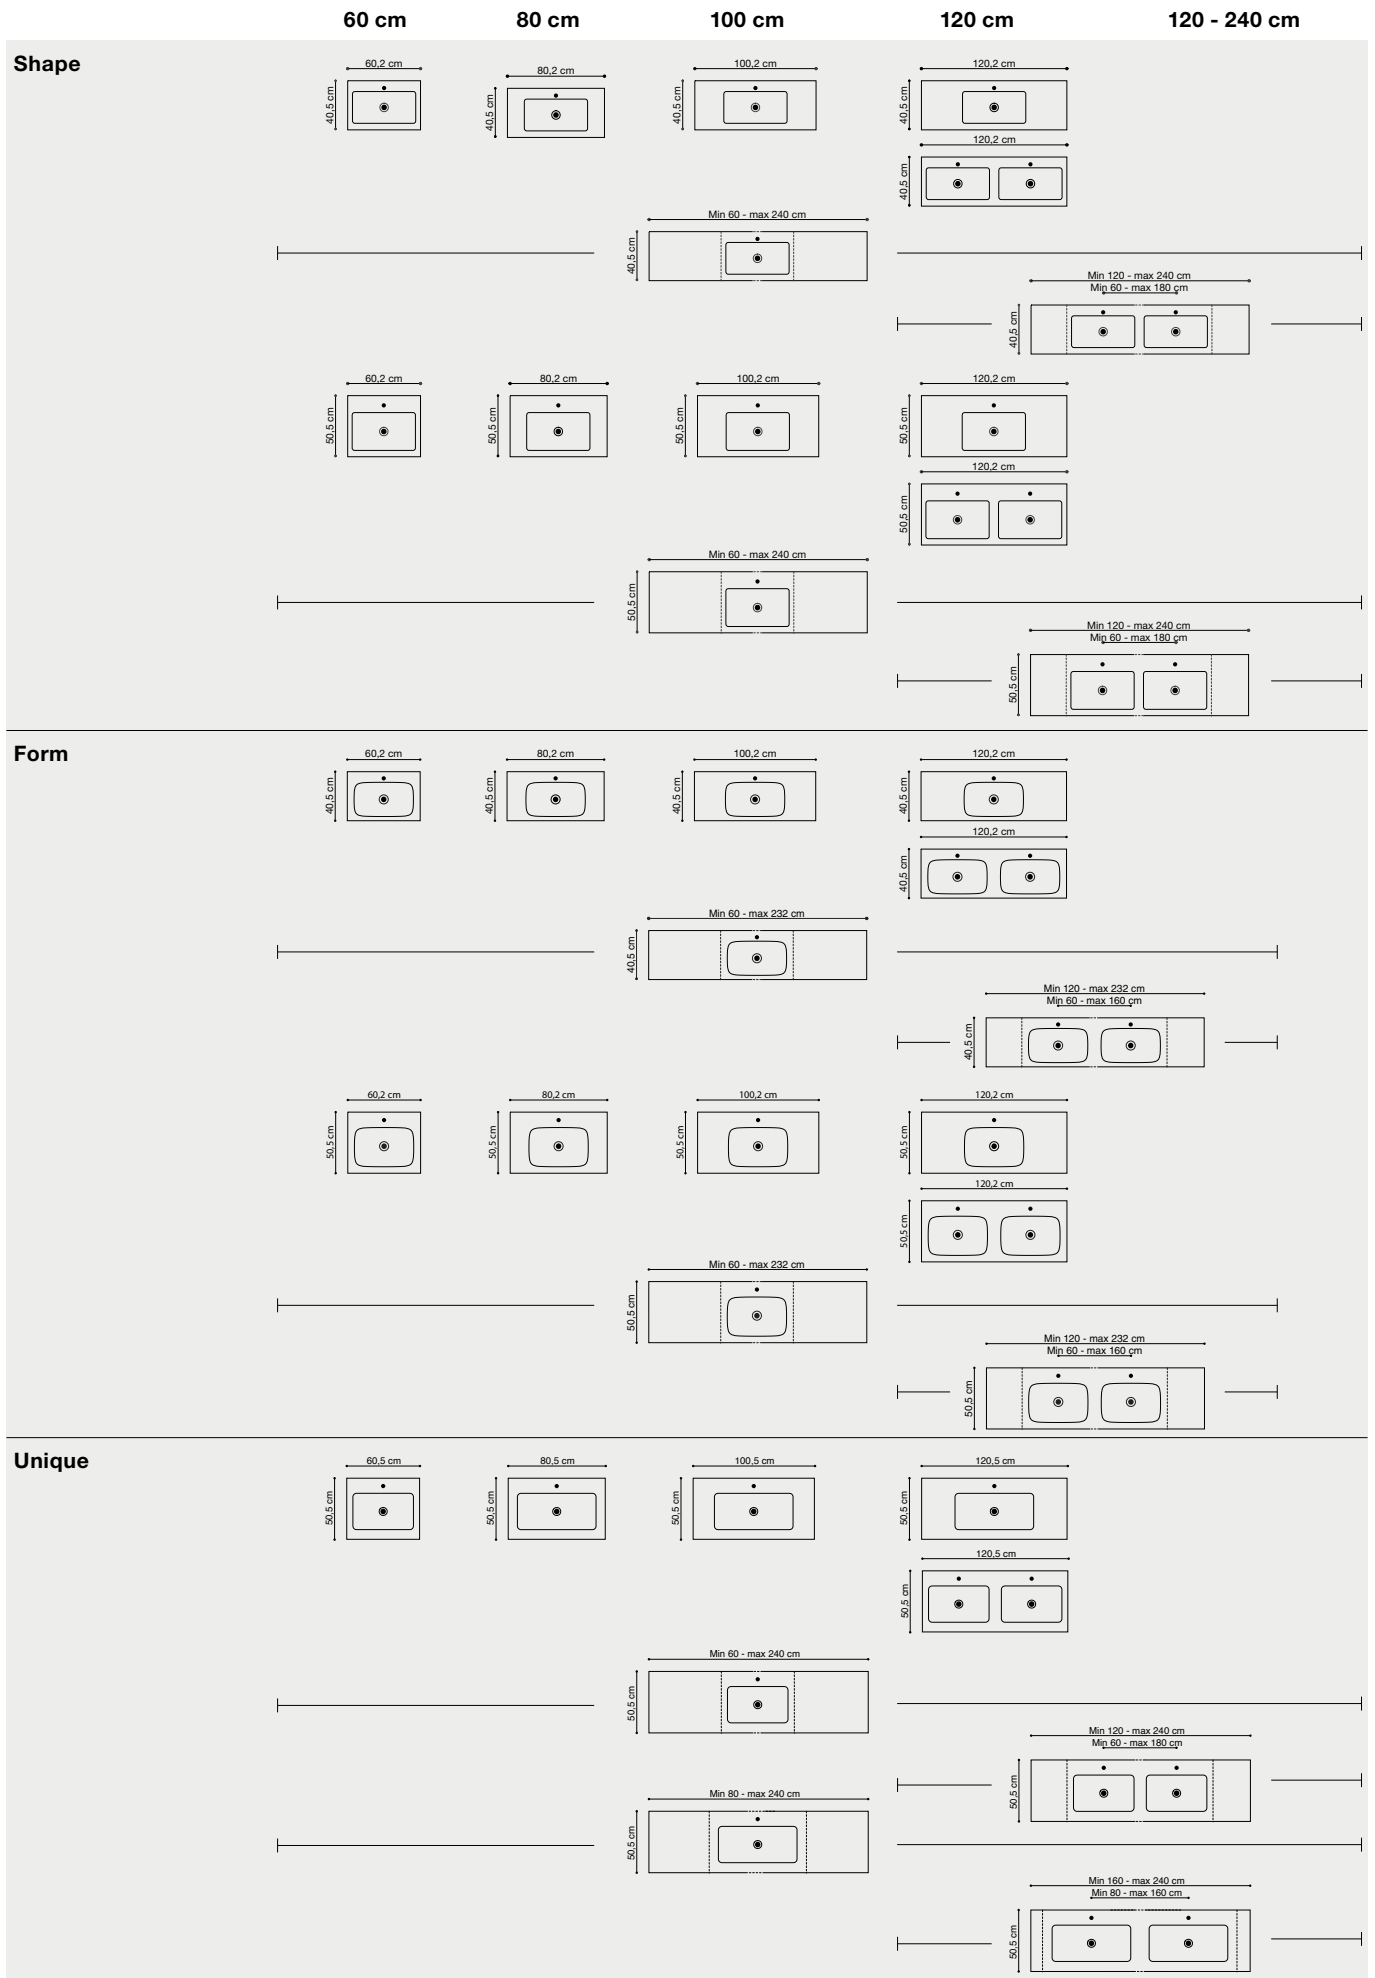

Ellipse / Sanitary porcelain

A modern oval design with thin outer edges. The exclusive look is highlighted by the fine, clean form of the basin which is shaped to maximise the space in the bowl. The basin can be fitted on our elegant worktop. Manufactured in Italy.

Colours on cabinets and accessories

Create the most beautiful contrasts by choosing from our wide selection of surfaces in various colours and materials and create your very own style.

Standard colour

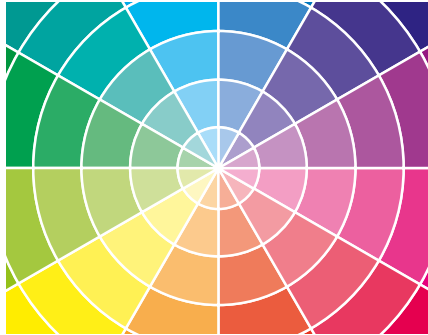

Classic white that exudes both exclusivity and durability.

White matt (sheen 30)

Bespoke colour

You can choose whatever matt colour you like from two different colour palettes: NCS S (standard colours only) or RAL Classic. You just have to pay a start-up fee of £ 167.- (net price), payable only once for each colour, no matter how many products you order.

Bespoke colour - see more on next page

Oak veneer

Genuine veneer cut from solid European oak which follows the wood grain pattern for the full length of the items. All edges are veneered. Natural variations in the structure of the veneer can be seen from one surface to another. Genuine veneer is affected by sunlight so you will see colour changes over time.

You just have to pay a start-up fee of £ 167.- (net price), payable only once for each colour, no matter how many products you order. See more on page 116.

Handles

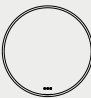

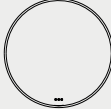

A handle is your contact point with the unit. You can choose long handles for Calidris that complement the linear solutions. You can also choose short handles with a more discreet look. For a completely handle-less, stylish solution you can choose cabinets and drawers with push-open function. See options for drilled holes for handles on page 120.

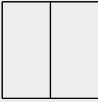

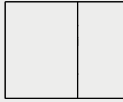

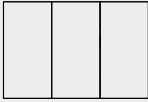

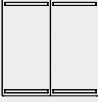

Mirror solutions

Calidris lets you choose between mirror solutions with built-in LED lighting or attractive lamps. Our mirror cabinets are full of smart functions such as double mirror doors, glass shelves, and electric sockets and you can supplement them with functional accessories and lighting. All mirror solutions are delivered with wall fittings.

Show

Mirror with a new, modern look and integrated LED lighting all round. It has fantastic lighting and a real wow-factor. Optional soft-touch control in the mirror to turn the anti-mist pad on and off.

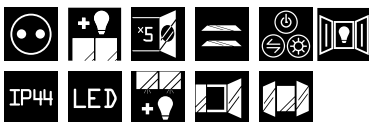

Soft

The rounded corners of the mirror soften up the square look, while the generous height gives you a large area to see yourself in. As an optional accessory choose one of the beautiful LED lamps or an anti-mist pad to reduce mist build-up.

Moon

A superbly stylish mirror with LED lighting all the way round for a great effect and ideal light to work in. The mirror is available in matt black or polished brass finish with an anti-mist pad to reduce mist build-up as an optional extra.

Primo

This is a simple, stylish mirror cabinet with large mirror surfaces and attractive Venus or Jupiter LED lamp options. The mirror cabinet is available in all decors to match the furniture.

Parallel

This attractively designed mirror cabinet with light panels at the top and bottom provides effective lighting in the mirror cabinet, while at the same time provides really pleasant downward light to work in at the mirror and basin. The mirror cabinet is available in all decors to match the furniture.

Jupiter

LED light in a beautiful ultra-thin design. Also available as pendant light and ceiling light options in white, black and chrome finish.

Venus

Round energy-saving LED lights. A complimentary ceiling light is also available.

Product Information

Globe and Ellipse basins

Porcelain basins in genuine sanitary porcelain, which is a strong ceramic material with a glaze. When it is fired at about 1,220 degrees, the glaze melts to form a smooth, hard surface that is glossy and easy to clean.

Shape basins and worktops

Solid Surface basins and worktops consisting of a strong acrylic-based composite with a dense, easy-to-clean surface.

NB: The thin design requires support from cabinets across the full width. However, the basin or worktop is strong enough for an overhang up to 100 mm without support.

Form basins and worktops

Glass basins and worktops lacquered on the underside. They are made in special crystal clear glass, which is a more neutral colour than ordinary float glass because it contains less iron oxide. The basins are easy to clean and the surface is resistant to normal chemicals.

NB: The thin design requires support from cabinets across the full width. However, the basin or worktop is strong enough for an overhang up to 100 mm without support. The basin waste must not be over-tightened. Do NOT use tools for tightening.

Unique basins and worktops

Silestone® consists of more than 90 % natural quartz, and the surface is hard-wearing and easy to clean. Basins are available with bowls in two widths: 50 and 65 cm. The 65 cm basin must be placed on an 80 cm wide vanity unit. NB: The thin design requires support from cabinets across the full width. However, the basin or worktop is strong enough for an overhang up to 100 mm without support.

Cabinets

Veneer: 15 mm veneered MDF board with solid wood edge lists, lacquered with moisture resistant two-component lacquer for a robust, easy-to-clean surface.

Lacquer: 16 mm MDF board in matt white or bespoke colours, lacquered with moisture resistant two-component lacquer for a robust, easy-to-clean surface.

The cabinets are delivered assembled with the cabinet-maker's tongue and groove technique. The back panel and 3-way adjustable hanging fittings for wall attachment are included.

Additional options: energy-efficient LED lighting in drawers, built-in LED lighting inside cupboards and divider trays. See more about options in the price list.

Shelves

As standard, all cabinets are supplied with shelf support pegs and 6 mm crystal-clear glass shelves with polished edges that give the shelves a light and attractive look. Not applicable to vanity units.

Doors and fronts

Veneer: 15 mm veneered chipboard with solid wood edge lists, lacquered with moisture resistant two-component lacquer for a robust, easy-to-clean surface. The veneer fronts have gloss levels 3-10.

Lacquer: 16 mm MDF board in matt white or bespoke colours, lacquered with moisture resistant two-component lacquer for a robust, easy-to-clean surface. Sheen level 30 lacquered fronts.

All doors are supplied with stable metal clip hinges with integrated dampers, so that all doors close softly and silently. The hinges are easily adjusted in three directions.

All fronts are designed with a bevelled edge that serves as an integrated invisible handle on doors of tall cabinets, wall cabinets and base cabinets. To buy handles, see the price list.

Drawers

The drawers have white, exclusive metal sides and are fully extendable and self-closing with dampers that ensure that the drawers close softly and silently. The drawers are adjustable in three directions and supplied with white, non-slip rubber inlay. Drawers with cut-outs for plumbing have integrated drawer dividers and standard solid oak fittings in the top drawer. Drawer dividers and lids in solid oak can also be bought separately as extra accessories. Additional handles and push-open function can be selected from the price list.

Vanity units

All vanity units are assembled with tongue and groove joints, without tops as standard. They are supplied with a back rail and back panel which allows space for standard fittings and installations. Vanity unit with one drawer delivered as standard with cut-out. 40 cm high vanity unit with two drawers delivered as standard with cut-out in both the top and bottom drawer. 60 cm vanity unit with two drawers delivered as standard with a top drawer with cut-out and a bottom drawer without cut-out. The cut-out ensures space for the water trap and installation. Each vanity unit is supplied with an integrated drawer divider in matt white where there is a cut-out. In addition, two wooden trays and a lid in solid oak and a magnet in the top drawer are included.

Internal drawer in 40 cm high vanity unit with one drawer. To buy extra trays & lids, see the price list.

Optional accessories: 230V socket in the bottom drawer, energy-efficient LED lighting in both drawers and LED downlight to floor. NB: integrated sensor in the support rail. Wattage 2 – 6W depending on drawer width. Vanity units with lighting are IP44 approved.

Wooden worktops and wooden shelves for consoles

25 mm particle board with 3 mm HDF top layer, over-veneered and with solid wood edging and coated with moisture-resistant, two-component lacquer that gives a robust and easy-to-clean surface. An additional support rail must be purchased where there is an open span of 80 cm or more between the vanity unit and bracket. The support rail is constructed in a polished square stainless profile similar to the console brackets.

Custom-made veneered wooden worktops

Description as in the above section. Maximum length 2,440 mm. Price and delivery time upon receipt of sketch/drawing with measurements.

Consoles

High-polished stainless steel square profile with matching stainless steel covers.

Mirrors in three variations

1. White matt lacquered mirror with background lighting – with round corners and an energy-efficient LED strip at the back which shines through a sand-blasted area in the mirror. The mirror has a pre-fitted anti-mist pad to reduce condensation on the mirror.

- Mirror with external LED lights as an optional extra with light-control, built-in memory function and optional integrated heat pad to keep the mirror mist-free.
- Round-framed mirror with integrated LED lighting all the way round the frame and lighting control. Choose between matt black or polished brass frame.

Wall fittings are included with all mirrors. All mirrors are IP44 approved.

Mirror cabinets

All mirror cabinets are supplied with integrated shaver point, light-control with built-in memory function and double-sided mirrored door with adjustable hinges and dampers. A round magnifying mirror (magnifies 5 times), which you can place at the required height is included. The back panel of the Primo mirror cabinet is a 4 mm mirror glued to an MDF board. In Parallel the back panel is 8 mm chipboard with a melamine surface. The mirror cabinets are delivered with 6 mm movable, crystal clear glass shelves which give a light look. All mirror cabinets are IP44 approved. Primo mirror cabinets can also be supplied with a built-in energy-efficient LED underlight that provides extra lighting downwards over the basin. Solid wooden trays can be purchased for storing small items. See the price list for specific contents.

Mirrors and mirror cabinets with touch control have a 12V lighting system, where you have the following options:

- Touch control with the latest settings in a memory:
 - On and off function - Stepless dimming and adjustment of the colour temperature of the light (2100 – 6500 K)* with 4 pre-saved settings. The electronic touch control requires a 5-second interval between turning off and on again to save the latest setting.
- Excellent colour reproduction (RA 90+) *) 2100 K is very warm, almost reddish light, while 6500 K is very cold, almost bluish.

The working lives of the driver and LED are reduced if the light is kept on constantly.

Ceiling light

Our ceiling lights operate on the 230V lighting system, offering you the following advantages:

- Optimised quality and efficiency with high light output, low heat generation and long lifetime.
- Standardised light between room and product light sources creates uniform, harmonious lighting in the room (3150 K).
- Best colour rendering in the market (Ra 90-95).

Ceiling and pendant light

Our Venus ceiling light, Jupiter and the Jupiter pendant light, are all part of the standard 230V system and set at 3150K, but can also be dimmed using a trailing edge dimmer switch. They can also be combined with controllable-lighting products, but the light uniformity depends on the user's settings.

Energy rating labels and product data sheets can be downloaded from the product database at www.dansani.co.uk or a hard copy can be requested

Accessories

Standard in vanity units: Drawer dividers in matt white lacquered aluminium and wooden trays and a lid in solid wood.

Optional extras: Mobile towel rack, shelves and wall rails in matt coloured veneer or bespoke colours. Metal components in stainless steel. Solid oak trays for mirror cabinets, drawers and cabinets. Pull-out trays for tall cabinets in solid oak.

Handles

Handles to be bought separately. Choose from Dansani's wide range Drilling for handles also available at additional cost – see price list for options.

Fitting

Fittings and installation instructions are included with every delivery.

Wooden products - general

On the fronts, the direction of the veneer follows the length of the units. This means that the direction of the veneer on a door for a tall cabinet is vertical, whereas the direction of the veneer on a drawer front is horizontal. The wooden veneer used is European oak. Wooden products are characterised by variations in structure and colour. This means that natural variance in veneer or colour may occur and these cannot be considered a defect in the product. Genuine wooden veneer reacts to sunlight and colour changes will occur over time. See more at www.dansani.co.uk under "Product series".

Warranty

There is a 10 year warranty against manufacturing defects. On heated towel rails there is a 5 year warranty.

For further information regarding quality and tolerances please visit www.dansani.co.uk.

Practical information

Before ordering

The Dansani Calidris range is produced to order. The lead-time from receipt of order is usually 6 weeks.

Before installation

Please read the fitting instructions carefully before installation. All plumbing work should be performed by a qualified plumber and all electrical connections should be performed by a qualified electrician. Please note that the dimensions of porcelain basins are subject to variations within the tolerances indicated.

Maintenance

Always read the maintenance instructions which are included with the furniture upon delivery. Always read the instructions for use and the declaration of contents on cleaning materials before using them on the furniture. Do not use abrasive cleaning materials or cleaning materials that contain solvents or acids. Always make sure that basins and units are dry after use. This will make cleaning much easier and you will avoid damage due to moisture.

General

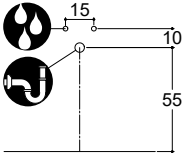

Dansani reserves the right to product alterations and improvements. With reservations for printing errors. If you want cabinets that are not included in our price list we offer, at a surcharge, to combine variants based on existing components – cabinet sides, drawers and fronts which can be ordered as special article numbers.

Custom-made products and products that have been altered or fitted cannot be returned.

For more information about installation dimensions and fitting instructions at www.dansani.co.uk.

We focus on sustainability

At Dansani, we assume responsibility and we take good care of our environment and the world that we live in. We've been doing this ever since our company was founded in 1983 and this approach is an integral part of our company DNA.

In 2015, the 17 Sustainable Development Goals were defined as a way of ensuring sustainable development towards 2030. By accepting these goals, the countries of the world are obliged to achieve some ambitious goals that guide both rich and poor countries in our fight to get rid of inequality, handle climate change, fight poverty and ensure better living conditions in terms of health, education, growth and work for everyone. In this way, these Sustainable Development Goals express our shared, global responsibility and represent the goal of the international community of creating a better world.

Our focus area are:

- To develop our products in order to minimise their environmental impact during manufacturing, use and not least disposal
- To design quality products based on proud, Danish handicraft traditions which can be used for many, many years
- To use raw materials, water and energy in an efficient way in order to minimise our impact on the environment
- To limit emissions, waste and discharge stemming from our activities
- To maintain high levels of safety standards towards our employees and foster responsible environmental policies
- To improve our environmentally-based work in cooperation with our suppliers, customers and other partners

So, when you buy a Dansani product, you can rest assured that we actively assume responsibility and focus on the world that we live in.

Find out more about our initiatives by visiting www.dansani.co.uk.

Our Philosophy

Your bathroom is your personal breathing space, and no one can create it better than you. With Dansani, it is easy and inspiring to furnish your bathroom with functional and well thought-out solutions that adapt to the needs of the individual.

Danish design

The idea behind Danish design embraces functionality, simplicity, and naturalness, and is expressed in a timeless design. This is the starting point for every product embraced by the Dansani brand.

Functionality

Our products should be easy and comfortable to use, as well as being able to adapt to the size of the space through smart functions that are practical yet durable.

Craftsmanship

Both design and function must be supported by durable craftsmanship. The excellent cabinetry finish is consistent in all our products, evidenced by gorgeous materials and sustainable solutions.

Sustainability

At Dansani, being environmentally responsible is a given. Therefore, we have implemented several measures to reduce our environmental impact. We also focus on our own work environment, encouraging our suppliers to offer ethically responsible working conditions.
